- Built-in doorbell
- Infrared night vision
- Visual intercom function
- Millimeter-wave radar for real-time motion detection
- Visual Cat's Eye by APP and indoor screen
- 4.5"HD indoor screen, 1MP camera
- Integration with smart home solution, and unlocking will activate the preset scene

Datasheet

Physical

- Product dimensions: 413*70*58mm
- Color: black
- Material: Aluminum alloy
- Door thickness compatibility: 45-110mm
- Cylinder: C-level
- Batteries: 7.4V lithium battery
- Operating temperature: -25°C ~+70°C
- Operating humidity: 10%-90% RH
- Emergency power supply: 5V, Type-c
- Network: Wi-Fi 2.4GHz
- Mortise options: 6068 (Side guide plate 240*24 240*30)
- Password/card/fingerprint capacity: 50 /50/100 sets
- Capacity of face and palm vein: 20 sets face and 20 sets palm
- Camera: 1MP, 160° wide-angle camera with infrared lighting
- Indoor screen: 4.5-inch HD screen
