

Exit switch

EB102

EB102 is a new mechanical exit button. It is made of stainless steel. It has small size, exquisite appearance, economical application and high cost performance. It is widely used in access control, electronic access control systems and other fields.

Specifications

Switching voltage	DC 12 ~ 24V	Buck mode	Built-in step-down resistor
Rated current	5A	Operation method	Self-replicating
Operating temperature	-20°C ~ +50°C	Explosion-proof grade	IK10
storage temperature	-20°C ~ +65°C	shell material	T=1.7mm stainless steel plate
Working humidity	10%-90%	Pin material	Copper plated
Lamp type	led	Head shape	Plane, power supply standard
Lamp life	40000h (reference value)	Product Size	L 115* W 70* H 28.6mm board thickness 1.7mm
Lamp color	blue
