

# DL30Z

## Zigbee-Enabled Digital Keypad Smart Lock

Phone

Passcode

MF Card

NFC

Key

## Brief Introduction

DL30Z is a digital keypad smart lock with Zigbee communication. With the additional Zigbee Gateway, you can easily remotely unlock the door lock, check the log history, share the temporary or dynamic passcode, modify the lock's features via ZSmart App, which is a new mobile application for the smart home system.

With its powerful and smart core, you can receive the real-time notifications of low battery, illegal verification attempts, hijack alarm of family members, offline status, and so on. Besides, you can customize conditions to trigger some messages or actions like when a family member goes home.

DL30Z is suitable for private houses, apartments and short-term rental, and greatly brings more security and convenience to your life.

## Features

### Total Control

Unlock and manage the lock from anywhere via a smart phone

### Temporary Access

Share digital keys valid for specific time to friends or guests

### Audio Instructions

Easy to operate; support English, Spanish and Portuguese

### Smart Alerts

Receive real-time notifications of low battery, hijack and offline

### Random Passcode

Secure your passcode from prying eyes

### Reversible Design

Fit for all door opening directions

Remote Access

Check Records

Share Temporary Password

Modify Lock's Features

## Applicable Scenarios

Private Houses

Apartments

Short-term Rental

## Accessories

### Zigbee Gateway

- Compact and simple design
- Easy and fast network configuration
- Full 128-bit encryption
